Education

Massachusetts Institute of Technology, College of Engineering — Cambridge, MA
Candidate for Bachelor of Science in Mechanical Engineering — *May 2030*

- Intended Concentration in Computing & Learning Machines; Double Minor in Computer Science & Economics
- **Current Coursework:** Intro to Computer Science (Python); Multivariable Calculus; Physics I: Mechanics; Chemistry
- **Campus Involvement:** Women in EECS; Bike Lab; MIT Badminton Team; Technique; Alpha Chi Omega

Staten Island Technical High School — Staten Island, NY
GPA: 98.27/100.00 UW | ACT: 35/36 (STEM: 36/36) — *June 2026*

- **Honors:** Thrive Academy FGLI Scholar; National ACTR Russian Olympiada & Essay Contest Gold Medals 2024; PSAL NYC Girls Varsity Table Tennis 1st Place 2026; PSAL NYC Girls Varsity Badminton 2nd Place 2025

Technical Experience and Projects

MIT Solar Electric Vehicle Team | *Aerodynamics (Solstice Fasteners) Team & Media Team* — Sep 2026 – Present

- Researching fastener redesigns to fix mechanical issues from the previous car to improve reliability and efficiency
- Completed CAD workshops and began using SolidWorks; queued to machine shop training to fabricate parts in-house

Factory AI | *Student Ambassador (Factory Guild)* — Oct 2026 – Present

- Selected to represent Factory, an AI software-engineering agent startup, at MIT; onboarding to run student events
- Built and presented a web game with Factory's Droid AI coding agent to Factory employees and other women in EECS
- Independently developing an unreleased Roblox game with Factory's Droid AI coding agent: documenting feature specs in Obsidian, directing the agent to write scripts and build 3D models using Blender MCP, and playtesting in Roblox Studio

Summer Design Institute | *Engineering Design Intern* — Jul – Aug 2024

- Designed and modeled 4 independent CAD assemblies in Autodesk Inventor (Chevrolet Camaro, MD 530F helicopter, animated open differential, miniature trailer shelter), navigating component constraints and motion relationships
- Engineered a miniature towable homeless shelter with rainwater collection, solar power, and a convertible bed; fabricated it using 3D printing and laser cutting
- Won the Autodesk Instructables "Make It Small" Judges' Prize for Best Designed 2D & 3D Model; showcased projects to visiting OpenAI and Apple executives
- Featured on Autodesk website's "Top Projects" front page; engaged ∼12,000 readers

SIAM M3 Math Modeling Challenge | *Team Lead* — Mar 2025 & 2026

- Modeled multivariable problems with Python Monte Carlo simulations and Excel; led a 5-person team
- Advanced to the Triage round (top 17% of submissions worldwide) in 2025 & 2026

Girls Who Code | *Independent Learner* — Oct – Dec 2024

- Self-taught HTML, CSS, and JavaScript; built personal web projects, including a homelessness awareness website

Service and Leadership

Math Club @ Staten Island Technical HS | *Founder & President* — Oct 2025 – Jun 2026

- Directed a 6-person officer board running biweekly math mentorship, SAT, AP Calculus, and AMC/M3 prep sessions
- Founded the club after 2 rejected proposals; grew it to 45+ members with ∼20 regular attendees per meeting

Explortle: NYC Student-led STEM Outreach Initiative | *Fundraising Lead* — Feb 2025 – Jun 2026

- Raised $500+ via 60+ cold emails, grants, and fundraisers, funding 425+ STEM kits for 1,200+ youth at 25+ events
- Led a 6-person team; expanded outreach initiative to 3 schools across NYC boroughs (∼30 members)

Middle School CAD Workshops @ Staten Island Technical HS | *Lead Volunteer* — Sep 2024 – Jun 2026

- Taught Tinkercad and AutoCAD basics to visiting middle school classes in teacher-arranged workshops and events

Relay for Life Club @ Staten Island Technical HS | *Treasurer* — Oct 2022 – Jun 2026

- Managed $6,000+ raised for cancer research across 6+ school-wide fundraisers; tracked funds for 45+ member club

Skills and Certifications

Design and Fabrication: AutoCAD, Inventor, Fusion 360, SolidWorks (basic), 3D Modeling & Assemblies, 2D Drafting, 3D Printing, Laser Cutting, Sewing Alteration, Adobe Lightroom, Photography
Programming and Tools: Python, MATLAB, JavaScript, HTML, CSS, VS Code, AI Coding Agents (Factory Droid), Excel
Certifications: MATLAB Onramp Certificate, Autodesk Certified User (AutoCAD, Inventor, Fusion 360); CTE Career & Financial Management Certificate
Languages: Fluent English; Conversational Mandarin; Limited Working Proficiency Russian
